Block Claiming Procedure—All sponsoring organizations must implement a block claiming procedure effective October 1, 2005. The procedure is to determine if the number of meals claimed for one or more meal types is identical for 15 consecutive days within a claiming period. If you don't have a system to check the daily totals for 15 consecutive days, you may want to look at the daily total meal counts at the bottom of every classroom's Meal Participation Record for 15 consecutive days for each meal service claimed.
